

## AME 4970/5970-008: Computational Materials Science (Spring 2025)

Tuesdays and Thursdays 12:00 – 1:15 PM

Sarkeys Energy Center, Room A0133

**Instructor:** Dr. Shuozhi Xu

**Office:** Felgar Hall, Room 236

**Email:** [shuozhixu@ou.edu](mailto:shuozhixu@ou.edu)

**Phone:** 405-325-1737 (office)

**Office Hours:** Tuesdays 10:00 – 11:30 AM, Thursdays 10:00 – 11:30 AM, or by appointment  
(students will be notified beforehand if some office hours are to be offered via Zoom)

**TA:** None

### Textbook:

Introduction to Computational Materials Science: Fundamentals to Applications

Richard LeSar, 1<sup>st</sup> edition, Cambridge University Press, 2013.

### Learning Goals:

By the end of the course, students will be able to...

1. Learn about common computational materials science approaches at different length and time scales.
2. Understand the fundamental principles of two approaches: the atomistic simulation method and the phase-field method.
3. Utilize software tools to perform simulations.
4. Develop skills in data analysis and visualization to interpret simulation results.
5. Explore the state-of-the-art developments in computational materials science.

### Topics:

1. Common computational materials science approaches (Week 1)
2. The atomistic simulation method (Weeks 2–7)
3. Instructor's own research (Week 7)
4. Seminars (Weeks 9 & 11)
5. The phase-field method (Weeks 12–14)

### Grade Distribution:

#### AME 4970 students

Homework (4) ..... 40%

Mid-term exam (2) ..... 30%

Project data submission (1)..... 10%

Project presentation (1) ..... 10%

[The final grade of each AME 4970 student will be scaled by 100/90]

#### AME 5970 students

Homework (4)..... 40%

Mid-term exam (2)..... 30%

Project data submission (1)..... 10%

Project presentation (1) ..... 10%

Report (1)..... 10%

### Grading Policy:

90+ ..... A

80-89 ..... B

70-79 ..... C

60-69 ..... D

-59 ..... F

**Canvas:**

All lectures, homework assignments, solutions, and grades will be posted on Canvas (<https://canvas.ou.edu/>). The students should submit all homework, project, and report (if applicable) to Canvas.

**Late Submission and Missed Exam(s):**

Unless the instructor gives prior approval, each day (24 hours) of late submission will result in a deduction of 5 points (out of 100 points) for that submission. If your submission is late for more than five days (120 hours), you will get zero point. A missed exam counts as zero and there will be no make-up exam unless a valid excuse from a physician or a university authority is presented to the instructor.

**Classroom Policies:**

Each class period, each student is expected to bring a laptop, which may be used for programming exercises. Please refrain from doing homework or other activities during class. Turn your cell phones to silent when you enter.

**Final Exam Preparation Period:**

Pre-finals week will be defined as the seven calendar days before the first day of finals. Faculty may cover new course material throughout this week. For specific provisions of the policy please refer to OU's Final Exam Preparation Period policy: <https://www.ou.edu/registrar/academic-records/academic-calendars/final-exam-policies>

**Academic Support:**

The Gallogly College of Engineering has the infrastructure in place to help you succeed and to get you the support you need. Make sure you take advantage of the infrastructure available to you. For more information, please visit: <https://www.ou.edu/coe/academics/student-support>

**Academic Integrity Policy:**

Academic integrity means honesty and responsibility in scholarship. Academic assignments exist to help students learn; grades exist to show how fully this goal is attained. Therefore, all work and all grades should result from the student's own understanding and effort. Academic misconduct is any act which improperly affects the evaluation of a student's academic performance or achievement. Misconduct occurs when the student either knows or reasonably should know that the act constitutes academic misconduct. For more information, please visit:

<https://www.ou.edu/integrity/students>

**Use of Generative AI in Coursework:**

Students may use generative AI tools (e.g., ChatGPT, Gemini, Claude, Copilot, Jasper) to help them learn course content, complete course assignments, or do other course-related tasks. In the meantime, students are expected to provide attribution for any text created using generative AI tools as appropriate.

**Reasonable Accommodation Policy:**

OU is committed to the goal of achieving equal educational opportunity and full educational participation for students with disabilities. If you have not yet established services through the Accessibility and Disability Resource Center (ADRC), but have a documented disability and require accommodations, please complete ADRC's pre-registration form ([https://cm.maxient.com/reportingform.php?UnivofOklahoma&layout\\_id=350](https://cm.maxient.com/reportingform.php?UnivofOklahoma&layout_id=350)) to begin the registration process. ADRC facilitates the interactive process that establishes reasonable accommodations for students at OU. For more information on ADRC registration procedures, please review their Register with the ADRC web page (<https://www.ou.edu/adrc/about/registering-with-the-adrc>). If you have already established reasonable accommodations with ADRC, please submit your semester accommodation request through the ADRC (<https://www.ou.edu/adrc/students/adrc-registered-students/accommodation-request>) as soon as possible and contact me privately, so that we have adequate time to arrange your approved academic accommodations. You may also contact ADRC at (405)325-3852 or [adrc@ou.edu](mailto:adrc@ou.edu), or visit [www.ou.edu/adrc](http://www.ou.edu/adrc) for more information. Note: disabilities may include, but are not limited to, mental health, chronic health, physical, vision, hearing, learning and attention disabilities, pregnancy-related. ADRC can also support students experiencing temporary medical conditions.

**Adjustments for Pregnancy/Childbirth Related Issues:**

Should you need modifications or adjustments to your course requirements because of documented pregnancy-related or childbirth-related issues, please contact ADRC at 405/325-3852 and/or the Institutional Equity Office at 405/325-3546 as soon as possible. Also, see the Institutional Equity Office FAQ on Pregnant and Parenting Students' Rights (<https://www.ou.edu/content/dam/eoo/documents/faqs/faqs-pregnant-and-parenting-students.pdf>) for answers to commonly asked questions.

**Religious Observance:**

It is the policy of the University to excuse the absences of students that result from religious observances and to reschedule examinations and additional required classwork that may fall on religious holidays, without penalty. [See Faculty Handbook (<https://www.ou.edu/provost/faculty-affairs/faculty-handbook>) 3.15.2]

**Mental Health Support Services:**

Support is available for any student experiencing mental health issues that are impacting their academic success. Students can either be seen at the University Counseling Center (UCC) located on the second floor of Goddard Health Center or receive 24/7/365 crisis support from a licensed mental health provider through TELUS Health (<https://ou.edu/ucc/services/telus-health-student-support>). To schedule an appointment or receive more information about mental health resources at OU please call the UCC at 405-325-2911 or visit UCC, located at 620 Elm Ave., Room 201, Norman, OK 73019.

**Title IX Resources and Reporting Requirement:**

OU faculty are committed to creating a safe learning environment for all members of our community, free from gender and sex-based discrimination, including sexual harassment, domestic and dating violence, sexual assault, and stalking, in accordance with Title IX. There are resources available to those impacted, including: speaking with someone confidentially about your options, medical attention, counseling, reporting, academic support, and safety plans. If you have (or someone you know has) experienced any form of sex or gender-based discrimination or violence and wish to speak with someone confidentially, please contact OU Advocates (<https://www.ou.edu/advocacyandeducaon/ou-advocates>, available 24/7 at 405-615-0013) or UCC. Because OU is committed to the safety of you and other students, and because of our Title IX obligations, I, as well as other faculty, Graduate Assistants, and Teaching Assistants, are mandatory reporters. This means that we are obligated to report gender-based violence that has been disclosed to us to the Institutional Equity Office. This means that we are obligated to report gender-based violence that has been disclosed to us to the Institutional Equity Office. This includes disclosures that occur in: class discussion, writing assignments, discussion boards, emails and during Student/Office Hours. You may also choose to report directly to the Institutional Equity Office. After a report is filed, the Title IX Coordinator will reach out to provide resources, support, and information and the reported information will remain private. For more information regarding the University's Title IX Grievance procedures, reporting, or support measures, please visit Institutional Equity Office (<https://www.ou.edu/eoo>) at 405-325-3546.

**Emergency Protocol:**

During an emergency, there are official university procedures (<https://www.ou.edu/campusafety/policy-and-procedures>) that will maximize your safety.

Severe Weather: If you receive an OU Alert to seek refuge or hear a tornado siren that signals severe weather,

1. Look for severe weather refuge location maps located inside most OU buildings near the entrances.
2. Seek refuge inside a building. Do not leave one building to seek shelter in another building that you deem safer. If outside, get into the nearest building.
3. Go to the building's severe weather refuge location. If you do not know where that is, go to the lowest level possible and seek refuge in an innermost room. Avoid outside doors and windows.
4. Get in, Get down, Cover up
5. Wait for official notice to resume normal activities.

Additional Weather Safety Information is available through the Department of Campus Safety: <https://www.ou.edu/campusafety/divisions#management>

**Fire Alarm:** If you receive an OU Alert that there is danger inside or near the building, or the fire alarm inside the building activates:

1. LEAVE the building. Do not use the elevators.
2. KNOW at least two building exits
3. ASSIST those that may need help
4. PROCEED to the emergency assembly area
5. ONCE safely outside, NOTIFY first responders of anyone that may still be inside building due to mobility issues.
6. WAIT for official notice before attempting to re-enter the building.

For more information, watch the video for OU Fire Safety on Campus: <https://vimeo.com/125093634>

### **The University of Oklahoma Active Threat Guidance:**

OU embraces a Run, Hide, Fight strategy for active threats on campus. This strategy is well known, widely accepted, and proven to save lives. To receive emergency campus alerts, be sure to update your contact information and preferences in the account settings section at <https://one.ou.edu>.

**RUN:** Running away from the threat is usually the best option. If it is safe to run, run as far away from the threat as possible. Call 911 when you are in a safe location and let them know from which OU campus you're calling from and location of active threat.

**HIDE:** If running is not practical, the next best option is to hide. Lock and barricade all doors; turn off all lights; turn down your phone's volume; search for improvised weapons; hide behind solid objects and walls; and hide yourself completely and stay quiet. Remain in place until law enforcement arrives. Be patient and remain hidden.

**FIGHT:** If you are unable to run or hide, the last best option is to fight. Have one or more improvised weapons with you and be prepared to attack. Attack them when they are least expecting it and hit them where it hurts most: the face (specifically eyes, nose, and ears), the throat, the diaphragm (solar plexus), and the groin.

Please save OUPD's contact information in your phone.

**NORMAN campus:** For non-emergencies call (405) 325-1717. For emergencies call (405) 325-1911 or dial 911.

**TULSA campus:** For non-emergencies call (918) 660-3900. For emergencies call (918) 660-3333 or dial 911.

### Tentative Semester Schedule:

Week	Date	Topic	Notes	Week	Date	Topic	Notes
1	1/14	Overview		9	3/11	Seminar	
	1/16	Introduction	HW 1 assigned		3/13	Seminar	HW 3 due
2	1/21	Atomistics #1		10	3/18	No class	Spring vacation
	1/23	Atomistics #2	HW 1 due		3/20	No class	Spring vacation
3	1/28	Atomistics #3		11	3/25	Seminar	HW 3 solution
	1/30	Atomistics #4	HW 1 solution		3/27	Seminar	
4	2/4	Atomistics #5		12	4/1	Phase-field #1	HW 4 assigned
	2/6	Atomistics #6	HW 2 assigned		4/3	Phase-field #2	
5	2/11	Atomistics #7		13	4/8	Phase-field #3	
	2/13	No class	Bad weather, HW 2 due		4/10	Phase-field #4	HW 4 due
6	2/18	No class	Bad weather	14	4/15	Phase-field #5	
	2/20	Atomistics #8	HW 2 solution		4/17	Review	HW 4 solution
7	2/25	Atomistics #9		15	4/22	Mid-term exam #2	Covers phase-field
	2/27	Atomistics #10	HW 3 assigned		4/24	Project presentations for AME 4970 students	Project data/slides due at mid-night for the presenters
8	3/4	Review	Project assigned	16	4/29	Project presentations for AME 4970 students	Same as above
	3/6	Mid-term exam #1	Covers atomistics		5/1	Project presentations for AME 5970 students	Same as above Also, project report due

**Final exam:** None

**Project presentations:** Students who are registered for AME 4970 will do the presentations first, because of the OU policy on the pre-finals week's schedule for undergraduate courses.

**Project data and presentation slides:** Due at mid-night on the same day as the presentations.

- **Project data:** Submissions may be formatted as plain text files or Excel spreadsheets. Alternatively, a Google Drive link, a Dropbox link, or other cloud storage service links may be submitted on Canvas.
- **Project presentation slides:** Submissions may be in PDF, PowerPoint, or any appropriate format

**Report:** NOT required for AME 4970 students. Each AME 5970 student is required to submit a report reviewing the application of computational materials science (including materials informatics) in a specific research field (e.g., his/her own research field). Font size 11, single spacing, 1-inch margins on all sides. A single PDF file is required for submission. The report should consist of

- A title
- An abstract with less than 150 words
- A main text with at least 1500 words with citations
- A list of at least 30 references
